Experience

February 2022 – Present

Woww Digital, Cape Town- Junior Web Developer

- Brought WordPress websites to life, using WordPress and my knowledge in JavaScript, HTML, and CSS.
- Brought client visions to reality by carefully crafting and aligning content with their specific requirements through creative design, writing, and editing.
- Migrated websites and integrated payment gateways for smooth transactions.
- Took charge of web maintenance tasks like updating plugins, themes, and WordPress, while also conducting security scans and checks.
- Boosted website visibility and search engine rankings by implementing basic on-page SEO techniques
